

Automatic BOPP (Hot Melt) Labeling Machine

- Fully automatic linear operation for 200ml - 2000ml bottles.
(with certain change of parts).
- Maximum production speed of 60 / 90 / 120 / 200 bottles/min.
- Machine is built **fully** in **Stainless Steel**.
- Height adjustments to suit various bottle sizes.
- Imported gluing unit sprays minimal quantity
of hot melt adhesive (very minimal wastage).
- No cleaning of the nozzle or glue unit, before
production (less maintenance & saves time).
- Minimal change-over time, to shift from
one size to an another size of the bottle.
- Fitted with PLC control.
