

Premier P100 Miniwrap Wraparound Labelling System

Wraparound Labelling System

Description

The Premier 100 "miniwrap" has been designed to provide a highly cost effective solution to efficiently and accurately applying full or partwrap self-adhesive labels to round containers at speeds of upto 120 per minute.

Constructed from 304 grade Stainless Steel the P100 miniwrap features and integrated 1.5m or 2.0m long, 83mm or 150mm wide slat chain conveyor system powered by a varibale speed drive. The P100 labelling head is driven by powerful stepper motor technology guaranteeing the long life of your machine. Adjustment of the label head position is made with handwheels.

An optional pitching mechanism can be installed onto the infeed of the machine for accurate and consistent spacing of containers. Labels are wrapped around the container utilising our after-roll unit.

The machine incorporates simple controls for easy set-up of the machine. Simple dials on the front of the machine control the conveyer and label web speed and label feeddelay allow the machine to be quickly set-up by any operator.

Container pitching mechanism(option)

After-roll Belt Unit

- No change parts required
- Accurate to +/-0.5mm
- Capable of operating upto 120 cpm
- Small footprint

Options

- Hot foil coder
- Variable speed pitching mechanism

P100 Miniwrap Applications

Almost any type of round container in glass or plastic can be labelled accurately with our minwrap system. Ideally suited to the food, pharmaceutical, healthcare, household and cosmetics industries.

The P100 miniwrap is also an ideal contract packers tool with its small footprint and rapid changeover capability.

Technical Data

Container width/diameter	N/a - To suit customer requirements
Max. Container height	N/a - To suit customer requirements
Conveyor width	N/a - To suit customer requirements
Max. Label height	125mm / 210mm
Max. Speed	Upto 120 cpm (depending on label size)
Electrical	230V single phase 50/60Hz

Unit 2 Bathside Bay, Harwich, Essex CO12 3HF
