**Premier P100 Flexible Labelling System**

# Premier 100 Flexible Label Applicator

## Description

For a portable, flexible label applicator head to consistently apply labels precisely it has to be engineered to be a rigid and stable structure. This engineering philosophy also guarantees the life of your P100 will be a long one.

The applicator features easy to use quick release fittings to enable the label reel to be quickly re-loaded to ensure minimum production down time. With its fully adjustable support stand it can be positioned in the most hard to get at and awkward positions.

The applicator can handle labels up to a maximum of 125mm or 210mm in height. With its rotating label beak, it is able to apply labels in any plane onto most types of container.

## Features

- Robust construction
- No change parts required
- Simple controls
- Accurate to +/-0.5mm
- Capable of operating upto 120 cpm

## Options

- Thermal transfer/hot foil coder
- Low reel detector
- Integral food quality transport belt
- Flow wrapper integrated unit
- Rotating Label Beak

## P100 Applications

*Flexible packaging label*

*Large size single label*

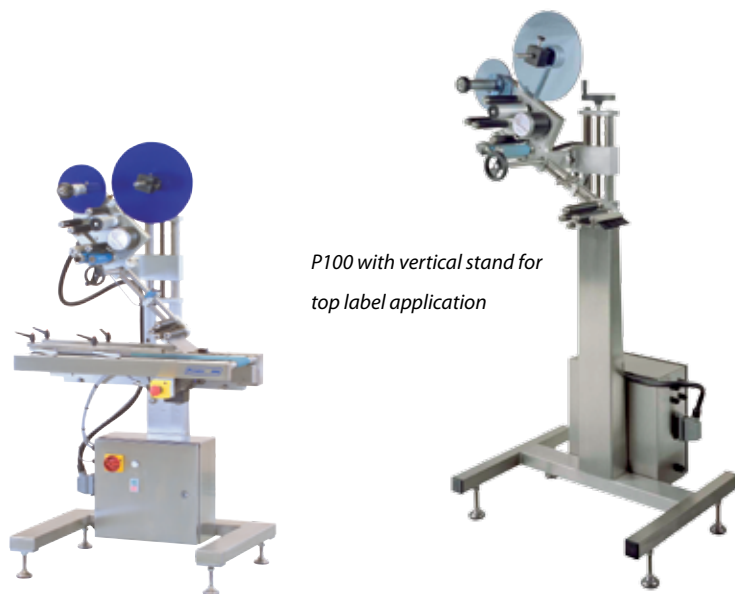

*Top tamper-evident label*

The label applicator can be used as a promotional labeller for your products and also is a flexible side, top or bottom label applicator. A cost effective solution for a wide range of applications.
