water
solutions
pure, simple & complete

Pretreatment

For any feed sources :
Surface Water, Well Water, Sea Water or Waste water.
Marcuras provides any of the following processes or a combination to make it suitable for the downstream processes,

Filtration :
Sand Filter, Multi Media Filter, Activated Carbon Filter, Iron Removal Filter

Clarification :
HRSCC, Tube Settler, Lamella Clarifier

Ion Exchange

Marcuras offers expertise and experience in providing different types of ion exchange processes as mentioned below.
Softeners, Demineralisers, Mixed Beds, Condensate Polishing

Membrane Processes

Marcuras provides a complete range of membrane processes. Reverse Osmosis, Microfiltration, Ultrafiltration, Nanofiltration, Electrodeionization

Desalination

Marcuras offers both Membrane based and Thermal Desalination Systems. We can evaluate both technologies and offer the most cost-effective option to our customers.
Multiple Effect Evaporator, Sea Water Reverse Osmosis & Nano Filtration

Effluent & Sewage Treatment Plants

Marcuras offers a whole range of Effluent and Sewage Treatment Plants based on MBBR (Moving Bed Bio Reactor), UASB, MBR, Digesters, SBR and Advanced Oxidation technology for different applications.

Zero Liquid Discharge / Recycle / Reuse

To comply with stringent regulatory discharge requirements, & for optimum usage of resources Marcuras has plants for the treatment of industrial wastewater leading to a Zero Liquid Discharge system. We supply systems based on either membrane processes, evaporative processes or a hybrid combining the two processes to achieve Zero Liquid Discharge from the plants in a cost-effective manner. We also recycle and reuse effluent treated water, sewage treated water, cooling tower blowdown etc. using different processes.

We at Marcuras bring total solutions for water treatment, liquid waste treatment & recycle. Specialists in Water & Waste Water Treatment for over two decades. Our single minded focus towards technological advancements and superior quality has enabled us to become a privileged supplier to the customers worldwide. Apart from supplying & commissioning plants in various corners of India we have also supplied plants to East Africa, West Africa, Middle East, Australia & USA.

Unique business model

- We undertake **Contract Manufacturing Assignments** for Water Treatment Companies in India and abroad.
- Design, Standardization & Manufacturing Solutions for Water & Non-water OEM's, Project Execution Companies like Power Plant, Distilleries, Automobile etc.
- Mass Production of Standardized Plants.
- Fastest delivery, most competitive prices, unmatched quality...

Advantages

- State of the Art Manufacturing Facility
- Fastest deliveries in the industry
- Pioneering Latest Technologies
- Value for Money
- Extensive Domain knowledge.
- Quick Response & Efficient service team
