

MSC

TRANSFORMERS PVT LTD

"Precision in Power, Excellence in Every Turn"

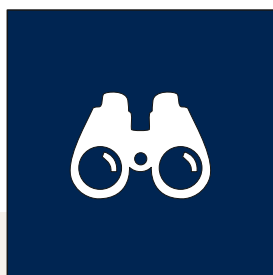

www.msctransformers.com

About the Company

MSC is a leading transformer manufacturing company in India. We've put our heart and soul into building a brand with a legacy worth remembering. We put our all into our products, ensuring that the MSC trademark became synonymous with quality you can trust. MSC manufactures Power and Distribution Transformers, Solar transformer, Furnace transformer and Package Sub-Stations & Unit Sub-Stations. Apart from the standard products, custom-made products meeting individual requirements are the specialty of MSC Transformers. MSC believes in consistent quality and no concession is allowed on Quality related issues. Quality assurance is not the sole responsibility of QA department but it is the responsibility of each individual involved in the process. MSC is ISO 9001: 2008 certified company.

MSC Transformers manufacturing range is as follows:

- Transformers: 100kVA to 20 MVA, 33kV Voltage Class
- Compact Substation: Up to 2500kVA, 33kV Voltage Class
- Various LT Panel & Metering Panel manufacturing

Our Vision

To be the leader in transformer industry around the world with most respected brand and preferred company of it's sector .

Our Mission

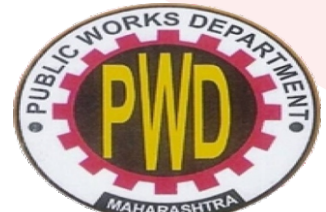

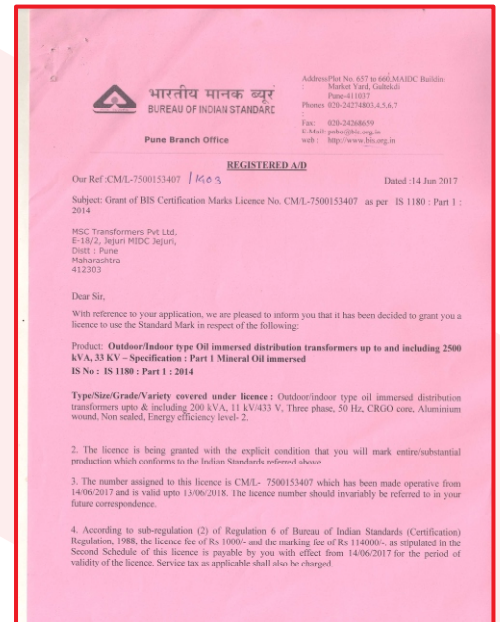

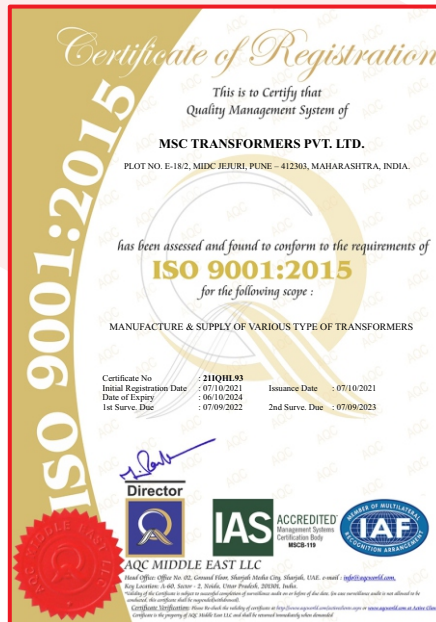

Our mission is to become market leader by providing high level of accountability, responsibility and integrity by offering quality products and services to our esteemed customers.

Our Values

Enthusiasm to innovate enriching lives. Excellence everywhere. Ethical without regret.

Certification / Approval

Product Range

A. Oil Type Transformers

1. I. Distribution Transformer

Distribution & Power Transformer approved by various Govt. Utilities & as per IS standards Manufacturing Transformers as per customer requirements and site conditions.

II. Power Transformer

Power Transformers manufacturing capacity up to 20MVA 33/22-11kVA Class as per IS 2026.

2.I. Natural Ester Oil Transformer

These transformers need very low maintenance, which is as good as maintenance free transformers.

We can install these transformers in building premises or basements of buildings. For the same necessary approvals are already given by the Central as well as state Govt. authorities. These transformers come with OCTC or OLTC combinations.

II. Hermetically Sealed Transformer

100 kVA to 2500 kVA Hermetically Transformer - Up to 33 kV Class as per BIS1180 (2014); Part1, Level I, II, III.

B. 1. Special Duty Transformer

Manufacturer of special design or application transformers for various applications like:

- Lighting Transformer
- Isolation Transformer
- Earthing Transformers or Multi Winding Transformers, etc.

B. 2. Furnace Transformer-Range: Upto 20MVA, 33KV

The induction melting transformers are uniquely designed for industrial applications where precise and efficient induction heating is required. It can efficiently heat the induction furnaces using a sophisticated inverter circuit to generate a voltage of medium frequency (500Hz or 1000Hz). The heavy copper tubing construction of the coil, tuned precisely to the inverter circuit, helps the induction coil to generate a magnetic field, inducing eddy currents in the charge and effectively heating it.

C. Dry Type Transformer

VPI / CRT type Dry Type Transformer Manufacturer up to 2 MVA, 33 kV Class as per IS 11176.

Various Application Dry Type Transformer manufacturer like isolation, lighting, etc. Distribution application Dry Type Transformer manufacturer with OCTL & OLTC.

Product Range

D. Solar Inverter Duty Transformer

In the Solar & Wind Industry in some cases Multiple Winding's are required where one winding in addition to its primary and secondary winding is used. This additional winding, apart from primary and secondary windings, is known as Tertiary windings of transformer. Because of this third or fourth or fifth winding.

- Multi winding Transformers upto 5 windings
- Step-up IDT Transformers upto 10mVA
- Primary low voltage Transformer upto 800V
- Secondary high voltage upto 33kV

E. Compact Substation

We manufacture Compact Type Substation as per various combination & as per client requirement.

CSS also available for solar, wind & special duty application requirement. CSS are available with Oil & Dry type transformer as well as Sealed or Non - Sealed Transformer.

Dual Transformer Type Compact Substations are also available.

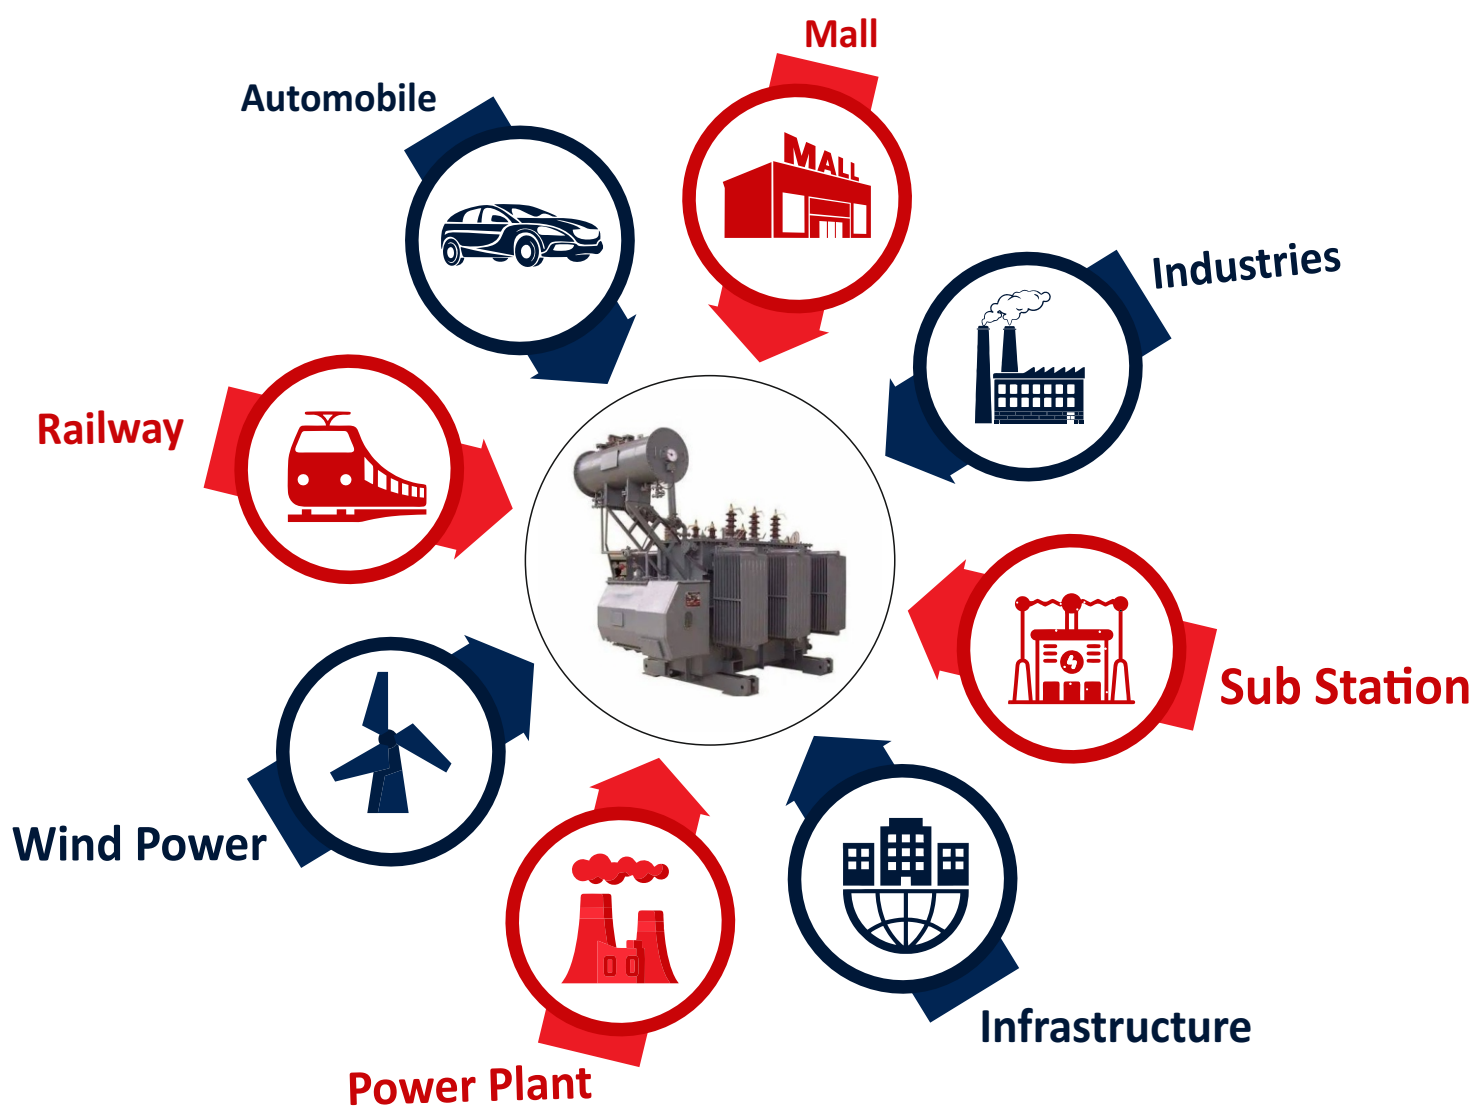

Testing Facility

Testing Facility

- Automatic Computerized Testing Panel for 1 Phase and 3 Phase Transformers.
- Computerized OC/SC Testing Facility for 1 Phase and 3 Phase Transformer.
- Current Transformer Testing Panel.
- DVDF Testing Facility.
- Insulation Tester (Megger).
- Load Testing Facility.
- High Voltage Testing Facility.
- Digital LCR Meter.
- Millie Ohm Measurement.
- Digital Ohm Meter.
- Infrared Temperature Indicator-Measurement of Temperature.
- Noise Sensor Instrument.
- Temperature Rise & Heat Run Test.
- Tan Delta & Capacitance Test For Busing & Winding.
- Ratio Test & Magnetic Balance Test.
- BDV Test & PPM Test of Oil.
- Capacitor Banks Unit.
- CTs/PTs Units.

Segments

Why MSC ?

Trust

Always dedicated and devoted

On Time Delivery

We ensure our product developed are always delivered on-time.

Quality

Quality assurance is our priority!

R & D

We have in-house R&D department for new product developments.

After Sales Service

We provide best, prompt service after sales. Services are provided on AMC basic too.

Valued Customers

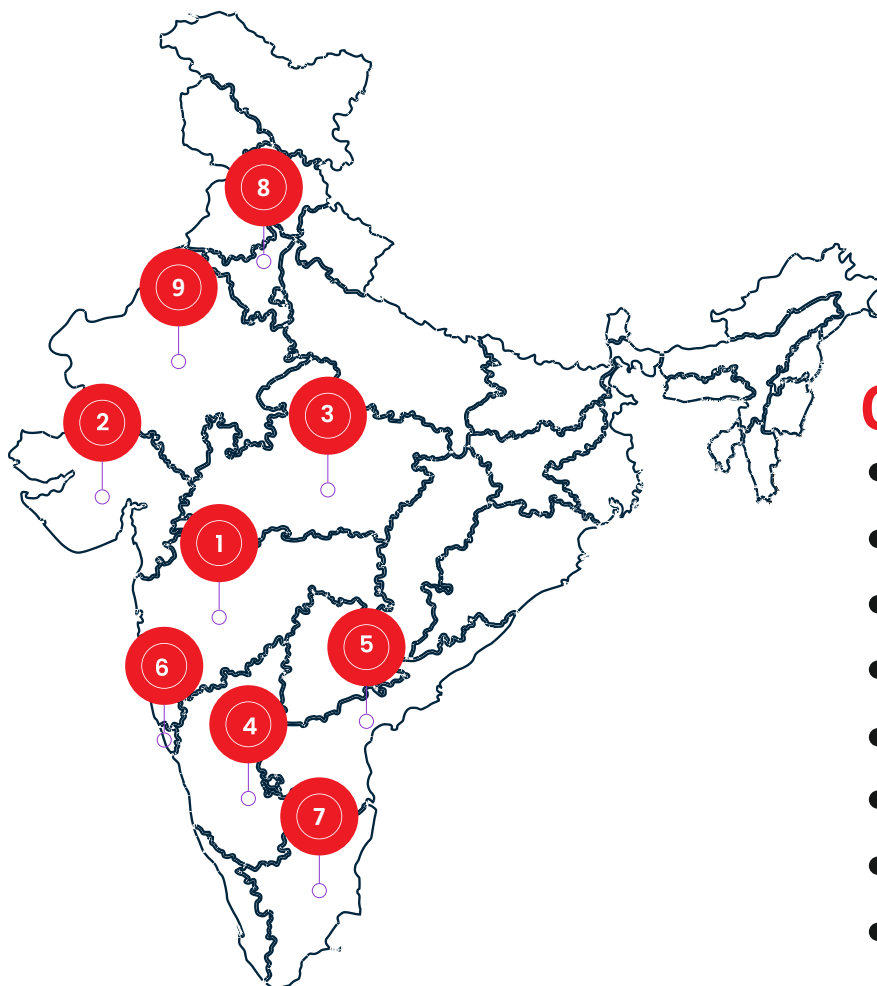

Hospital :	Civil Hospital, Sangli
Cold Storage :	Vedant Cold Storage
Water Supply Scheme :	MTDC Water Pumping Scheme, Phaltan
Food :	Parda Food LLP, Agrina Food India Pvt.Ltd. Kaarvi Nutraceuticals & Food Pvt.Ltd.
Foundry :	Kisan Alloye
Residential Complex :	Swara Residency, Samruddhi Apartment
Police Training center :	Commandant, SRPF, police Training center, Turchi, jalna
Stone Crusher :	Balaji Stone Crusher, Samruddhi Stone Crusher, Mahesh Stone Crusher, Someshwar Crush Sand, PEC Power Infro Pvt. Ltd, Admix Stone Crusher
Cement :	Shree cement, Bangur cement
Banking :	State Bank of Karad, Karad Branch
Road Construction :	Shalaka infra tech Pvt.ltd. Waghjai infra, Alstone RMC and infra Projects LLP
Packaging :	Santosh Packaging, Raj Plastics
Bazaar & Mall :	Big Bazaar
Agro :	Aditya Agro industries, Salwell Agro industries, JK Agro & Exports RR Agro Products, Eminance Agro foodPvt.Ltd
Wind Sector :	KLC wind Pvt.Ltd.
Metal :	Kagal Metals, India Seamlesss Metal Tubes Ltd.
Warehouse :	Mahalaxmi Warehouse, Omkar Warehouse
Hostels :	The Warden, Ambedkar Boys hostel
Casting :	Aarsh Die Casting
Commercial Complex :	Space Venture, Yashganga Constructions
Grampanchayat :	Sarpanch Grampanchayat, Shirur, Sarpanch Grampanchayat, Tardobachiwadi
Engineering :	Purchure Enginnering Pvt.Ltd. Greenlife Engineering Solution, Parc Robotic System Pvt.Ltd.
Textile :	Raymond, hindustan Nylons Silver Sand Hospitality LLP
Resort :	Sandeepa Powerlines Pvt. Ltd. Prakash Electricals,
Projects :	Hi-Tech Electritication Engineers Pvt.Ltd., Star Rewinders & Electricals

Our Services

- Site Overhauling
- Factory Service
- Annual Maintenance Contract (AMC)
- Rental Services
