Life Is On | **Schneider Electric**

Simplify your machines interfaces with intuitive industrial PCs

Magelis iPC

Navigate on an industrial Panel PC like on a smartphone
High quality displays, together with intuitive multi-touch navigation, enhance the user experience and increase efficiency.

Choose your design
All-in-one iPCs, as well as modular iPCs, suit industrial and infrastructure applications, increasing the cost-effectiveness of your operations over the complete life cycle.
The optional Configured To Order option allows further customization to your needs.

Empower your application
Performing Intel CPUs up to Core i7 paired with large RAM size enable the integration of a wide range of software in a smooth and efficient way.

The Magelis iPC range enhances the user experience and improves productivity

- **Capacitive multi-touch screens,** for smooth, smartphone-like navigation.

- 10-inch to 22-inch wide **high resolution displays** for clear visibility and situational awareness.

- **Flexible with both simple and modular versions:**
  - All-in-one, efficient for easy installation and optimized total cost of ownership.
  - Modular, adapts to meet your specific needs in all situations.

- Solid-state drives and fanless design, **maintenance-free,** supporting 24/7 operations.

- **Easy software integration:**
  - Schneider Electric: Vijeo XD, Vijeo Citect, Vijeo Designer…
  - Third-party and your own proprietary software on Windows.

- New global network of CTO centers (Configure To Order) to meet customer requests for **solutions on demand:**
  - Configure your own iPC from more than **2.5 million possibilities.**

Choose your design

Optimized S-Panel PC HMIPSO
For cost performance critical needs
- Intel® Atom dual core processor
- 4 GB DDR3 RAM
- 1 default storage drive (Cfast, HDD or SSD)
- 1 mini PCIe Slot
- H7 scratch resistant 10" and 15" wide screen
- Capacitive multi touch
- Dual Ethernet and com ports

Performance S-Panel PC HMIPSP
All-rounder for standard needs
- Compact frame (57 mm deep)
- Intel® Core i3 processor
- 8 GB DDR3 RAM
- 1 default storage drive (Cfast, HDD or SSD)
- 1 mini PCIe Slot
- H7 scratch resistant 15" and 19" wide screen
- Capacitive multi touch
- Dual Ethernet and com ports

Enclosed Panel PC HMIPEP
Similar feature then Magelis S-Panel PC, the enclosed version is IP66 all around, with standard M12 connectors, ready for VESA harm mounting

Modular Box PC HMIBM + displays HMIDM
High performance for demanding needs
Box
- Intel® Celeron to Core i7 processor
- 4 to 16 GB DDR3 RAM
- 3 default storage drives slots
- 2 mini PCIe Slot
- Optional PCI/PCIe extension slots
- High-availability options (RAID HDD hot swap, battery back-up)
- Industrial, hazardous locations and marine certifications

Displays
- Capacitive multi touch, scratch resistant, H7 hardness wide screens in 15" HD, 19" HD, as well 22" full HD definition
- Standard 15" screen with resistive touch
