

Prompt Fire Engineers

Corporate Brochure

We are Manufacturer and Supplier of Fire Fighting Equipment and Heavy Vehicle that are used for fire fighting, garbage handling, mobile advertising and other applications.

Prompt Fire Engineers

- Profile -

Prompt Fire Engineers are the leading manufacturers of Fire Fighting Equipments and Heavy Duty Vehicles in India. With the sole purpose of providing world class products to our customers we have installed a highly sophisticated manufacturing facility that has the capacity to handle multiple aspects of product design and manufacturing processes. We have time and again translated world-class technology into our heavy-duty functional vehicles to integrate international technology with local needs.

Backed by an excellent team of highly skilled engineers and experienced support staff, we have been able to design and develop quality heavy vehicles and fire fighting equipments which meet the quality standards of National Fire Protection Association (NFPA) Safety Standards. We understand the importance of quality in the equipment that we manufacture and work to achieve complete customer satisfaction by offering our clients flawless designed products.

We also place emphasis on research and development and has made it an integral part of our organizational policy. Our customers are completely satisfied by our products and services and have reposed their trust in us by placing repeated orders from their end for all their firefighting equipment requirements.
