

Technical Data Sheet

STRUCK - N(P)

Function : Compound release agent for Batch off Material.

Specification :

Composition	: Blend of anionic surfactant and detergent
Appearance	: Light Creamish powder
Solubility	: Dispersed in Water
pH	: Ca 8
(10% in water)	

Uses and Benefits :

Struck – N (P) is used as a batch off release agent for rubber processing. The product is in the form of powder & contains 100% active ingredients, The product can be used by dissolving 2 kg in 100 kg water for dipping the sheets of batch off.

- easily dispersed in water
- very good wetting of the rubber sheets
- excellent release effect
- fast drying
- low working concentration,
- low consumption
- no dust formation
- very low foam formation
- economic efficient working is provided

Dosage : 1 – 2.0 % (Depends on type of rubber compound)

Packing : 10kg Polylined paper bag.

Storage stability : Up to 2 years in normal storage conditions.

Handling : Consult material safety data sheet (MSDS) for additional handling information for Struck - N(P)
