

Technical Data Sheet

STRUCK – N (P) - WS

| | |
|----------------------|---|
| Function | : Compound release agent for Batch off Material. |
| Specification | : |
| Composition | : Zinc free water soluble Non-Settling special anti adhesive. |
| Appearance | : White to Off White Powder |
| Solubility | : Water |
| pH | : 9 ± 1 |
| | (10% in water) |

Uses and Benefits :

Struck – N (P)- WS is used as a Batch-Off release agent for rubber processing. It is a powder and contains 100 % active ingredients which are

- easily soluble in water
- compatible with water of different hardness
- very good wetting of the rubber sheets
- excellent release effect
- fast drying
- low working concentration,
- low consumption
- no dust formation
- very low foam formation
- very little or No sedimentation
- economic efficient working is provided

| | |
|--------------------------|--|
| Processing | : Struck N (P)- WS is added to the water that ideally has a temperature of approximately 40°C. During the batch-off process no sedimentation will occur. |
| Dosage | : 1 – 8.0 % (Depends on type of rubber compound) |
| Packing | : 10 kg Polylined Paper bag. |
| Storage stability | : Up to 2 years in normal storage conditions. |
| Approvals | : REACH/SVHC/ ROHS |
| Handling | : Consult material safety data sheet (MSDS) for additional handling information for Struck – N (P)- WS |
