Profile

Satguru Fire Services, based in Aurangabad, Maharashtra, was incorporated in the year 2001. We are involved in supplying, service providing and trading a wide range of Fire Fighting Equipment, along with developing design, supply, installation and maintenance services. Our company is conducting different kinds of job works in the sphere of fire protection systems, which include supplying materials, designing systems, installation & execution of systems as well as maintaining all types of Fire Fighting Systems.

Over the last ten years, we have fetched a large client base including more than 250 organizations across Maharashtra. This is a great accomplishment, which depicts our quality and dedication towards delivering our products and services. Our company is also engaged in offering turnkey jobs for installation of fire fighting systems across well-known industries in and around Aurangabad.

Our company has been able to succeed remarkably, under the proficient guidance and support of our able mentor, Mr. Rajprit Singh Oberoi, who has a number of years of experience in this particular realm of business. Thereby, we are now recognized as one of the most respected, reputed and well recognized companies among our clients nationwide, and are capable of delivering highly sophisticated products and services. We are looking for local queries.
