

Sparktech

<http://www.sparktechindia.com/>

We are a distinguished manufacturer and exporter of a wide range of Machines & Equipment for Food Industry. Our range is appreciated for its excellent performance, durability, robustness and reliability.

Profile

Established in the year **2007**, We "**Sparktech**", are Mumbai based leading name in manufacturing, exporting and wholesaling of Machines & Equipment for Food Industry. We are offering various range of refining machines & equipment. Our range of products include Heat Exchanger, Vegetable Oil Refinery Plant and Solvent Extraction Plant. We are experts for professional solutions. We have been the supplier of refining machines & equipment for the edible oil & margarine industry. Our product range covers all relevant processing procedures. In our company client satisfaction are top most priority. we take, utmost care & high degree of satisfaction from engineering via implementation to delivery. Reliability, long service life, economic efficiency & higher quality are always guaranteed. A refining process is carried out following extraction of crude edible oils by means of screw presses or solvent extraction.

Our state of art of infrastructure unit is well equipped with the latest tools and machinery systems for the safe storage of the offered product as per the industry laid standards. In refining, physical & chemical processes are combined to remove undesirable natural as well as environmental- related components from the crude oil. These components comprise for example phosphates, free fatty acids, pigments (such as chlorophyll), odors & flavours (including aliphatic aldehyde & ketone), waxes as well as heavy metals, pesticides etc. SPARKTECH offers customized machine solutions to meet the individual requirements of the customers. Depending on the requirements.

We were incorporated as a sole proprietorship firm and are currently running under the guidance of our mentor "**Mr. Amit Waghmare**". Owing to his depth knowledge, excellent management skills, innovative and business ideas, we have gained the big reputation in the field of margarine industry.

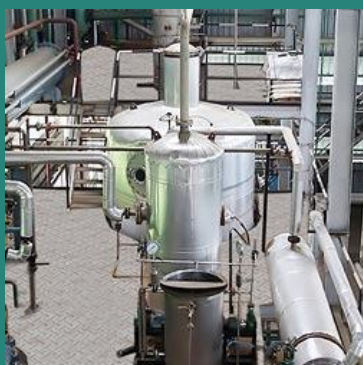

VEGETABLE OIL PLANT

Vegetable Oil Plant

Vegetable Oil Refinery Plant
