SPLASHJET

Your Ink Partner

INTRODUCTION

Splashjet Print Technologies is manufacturer of high quality Inkjet Inks. Splashjet inks are result of careful selection of colorants, proven ink design, in depth understanding of print-head technology & consideration for intended substrates.

The inks are developed by highly qualified team backed up by sophisticated laboratory set-up.

Splashjet's **"Iterative Development Methodology"** converts the designed ink into real product. Strict control on Physical & Chemical parameters keeps the inks in line with Design Specifications. Inks are put to Color Quality, Thermal Stability & Chemical Compatibility tests as per the design. All inks made by Splashjet go through stringent Application Tests to ensure ink performance in actual usage environments. The inks have to pass various Jet-ability, Run-ability, Media Fixation tests to qualify as a [Splashjet Ink](#).

Splashjet Inkjet Inks are Performance Inkjet Inks with amazing consistency & reliable quality. Splashjet offers its products at very competitive value to make sure you stay ahead of the competition.
