

Semi-Automatic Carton Sealing Machines - 4AM and 6AM

The reliable solution for your carton sealing needs

Coder

Features Include

An unique indexing mechanism ensuring that the message is printed at the exact location on the carton as desired which can be adjusted at 7 mm intervals.

- Printing width ranges from 25 mm to 50 mm with 2 or 4 lines of 10 mm size
- An anti-repeat mechanism to avoid repetition of message on long cartons
- Adjustable spring loaded inking mechanism for clear messages
- Inker assembly enclosed in metal casing to prevent spillage
- Grooved rubber stereotypes for quick and easy cleaning of messages thus saving time
- Option of left side and right side coders according to requirement

Accessories

Regulatory Cum Centering Conveyor

It regulates the flow of cartons and centers them from a wide displacement on the horizontal axis, prior to taping. The rollers on the conveyor are made of Mild Steel (MS) with a powder coating to prevent rusting.

Idle Roller Conveyor

The Idle Roller Conveyor is a buffer between the machine and the carton collecting station. It has a gravity roller mounted on a frame. The rollers are made of MS powder coated, SS rollers can also be supplied.

Options

One meter and half meter modules with studs and castors can be made to order.
