

HTS-Power

High Tension Semi Automatic Strapping Machine

Features

- For carton closure and reinforcement with high tension of up to 70kg, ITW Signode offers HTS-Power semi-automatic strapping machine.

HTS-Power advantages

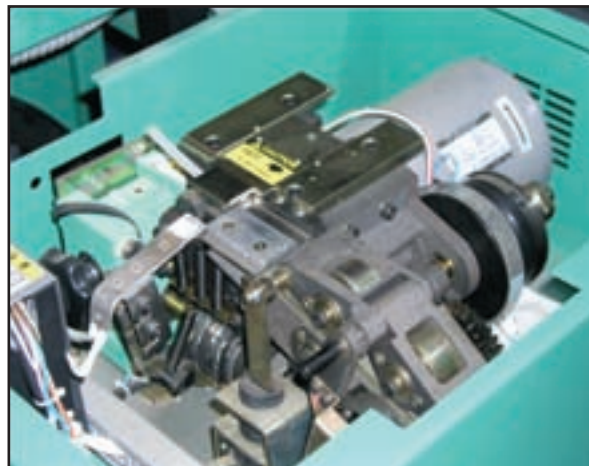

- High tension for heavy duty applications
- Electronic tension adjustment from 4 kg to 70 kg
- Element type heater blade to improve efficiency
- Ease of switching to different strap width/thicknesses
- Two channel type construction for easy strap loading
- Hinge type top roller for easy cleaning of strap path
- Power saving, safety and smoke ventilation features
- Silent operation
- CE certified

High Tension Semi Automatic Strapping Machine

Specifications

Strap Cycle Speed	2 seconds/strap
Tension Range Available	4~70 kg
Table Height	410mm
Strap Width	5~15 mm
Sealing Process	Heat Seal
Electricity Consumption	200W
Power Supply	220V 50Hz single phase
Dimensions	1540 L *610W *560H mm
Net Weight	88Kg

Electronic tension adjustment
for variable tension

Applications

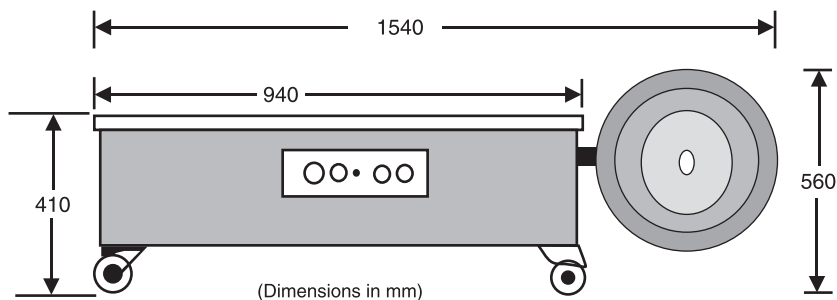

HTS-Power's high tension feature is most suitable for strapping heavy or solid cartons or packages, especially in Textile and Engineering Industries. The machine is recommended for moderate packaging volume. Table height of 410 mm promotes operating convenience.

Service network

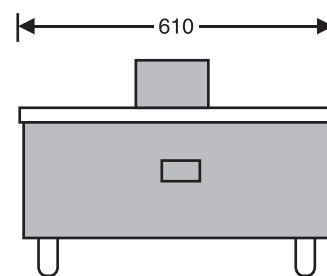

ITW INDIA LIMITED has strategically located offices and distributors across the country to cater to after sales service needs. With well trained engineers on hand, ITW India takes care of your service and maintenance requirements effectively.

Options

Ball Table Top (BTT) is available with this model as an option. BTT is recommended for use when cartons / bundles weigh 40kg or more. Use of BTT significantly reduces operator fatigue and improves packaging efficiency.
