

### Features and advantages

LITEC edgeprotectors, another world class environment friendly product of ITW Signode.

- Environment friendly, manufactured from process wastes and is recyclable
- Excellent moisture resistance
- Can be used with Steel, PET and Polypropylene Strapping

### Typical applications

Pavers Palletization- an outdoor application

Control Panel Packaging- wood replacement for a moisture sensitive product

Paper Reams Palletization - replacement of wood for recyclable export packaging

### Technical data

LITEC Edgeprotectors are manufactured in a proprietary process with paper, LDPE and foil. The materials are bonded and laminated under controlled heat and pressure for diverse applications.

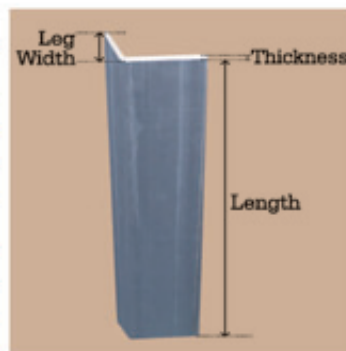

LITEC was developed to overcome problems associated with damp/wet conditions. As a result it is very effective in freezer/ cold storage applications.

LITEC offers good strength characteristics as well.

The raw materials and water based inks used are environment friendly and recyclable.

#### Standard dimensions (in mm)

Leg Width	Thickness
40x40	4
50x50	3
60x60	4
60x60	5
75x75	4
75X75	5
75X75	6

Other sizes including heavy duty range available based on volumes.

The company has policy of continuous product development and reserves a right to alter specifications any time without prior notice
