

# Slip Sheets

For unitizing loads and bulk material handling

Slip Sheets from the leading industrial packaging solutions provider, ITW India Limited, are the modern replacement for wooden pallets used in shipping and handling merchandise in both domestic and international shipment. Slip Sheets are strong, flat and solid with the load bearing area doubling up as the platform for unitizing.

## Advantages

Allows 12-15% more product payloads per container.

Weighs 20 times less than wooden pallets saves on shipping costs.

Saves warehousing space for productive use.

Clean surface assures less product damage freedom from popped nails, collapsed runners.

Easily disposable and recyclable - environment friendly ; reusable.

Moisture resistant.

Bacteria resistant, no chemical treatment required.

### CASE STUDY Pallet Vs. Slip Sheet

| Case Study                                             | Palletized Load   | Unitized Load with Slip Sheet |
|--------------------------------------------------------|-------------------|-------------------------------|
| Case Dimension                                         | 558 x 376 x134 mm | 558 x 376 x 134 mm            |
| No of Bottles per Case                                 | 66                | 66                            |
| Number of Cases per Pallet/Slip Sheet (1200 X 1000 mm) | 70                | 40                            |
| No of units per Container                              | 10                | 22                            |
| No of Bottles per Container                            | 46200             | 58080                         |
| Pay load increase per container in percentage          |                   | 26%                           |

### Typical unitization with Slip Sheet

### Types of Slip Sheets

**Solid Fiber Slip Sheet:** For heavy loads, high moisture or multiple use conditions

**Plastic Slip Sheet:** The most efficient and promising product because of it's many distinct advantages over pallets. Used world over to ship a growing number of products.

**Slip Sheets** are environmentally friendly—and recyclable at a premium value, to help save costs from end- to-end. Save in at least three ways with Slip Sheets
