stop a fire, before it is fire...!

We Define The Limits Of Fire...
An ISO 9001:2008 Company

experts in fire protection....!

The First Fire Tender (1935)

Fire is never a gentle master, unlike many other accidents fires and explosion have the potential to cause catastrophic losses to life, business and to property. So, protecting your loved ones, business, and your employees from a fire loss is of major importance.

Fire protection, fire safety and security solutions, impacts every aspect of building design, construction so a good fire protection and security system is imperative at the design stage of any building, domestic or commercial.

"**Star Fire**" can deliver these fire protection services you need. The knowledge and experience of our fire protection engineers can assess hazard potential and develop a cost effective plan to greatly reduce the risk of fire. Working with our clients, we aim to develop and implement practical and cost effective solutions to fire safety and security problems. Founded by **Mr. Tushar Kadam** in 2005 Star fire have Registered Office in Pune and branch offices in Mumbai, Nashik and Jammu respectively, with a team of experts who are recognized as the best in the industry.

From residential buildings to shopping centers, auditoriums to hotels our experience as **Star Fire System Pvt. Ltd.** is second to none and our specialist knowledge and industrial contacts continue to grow.

with you every step of the way...!

“After all providing fire safety systems and security solutions, is about making the world a safer place to live in...”

Intelligent Protection Against Fire...!

Fire Hydrant System

We provide a comprehensive range of fire hydrant systems that are commissioned on a turnkey basis. These fire systems can easily detect fire in the initial stage and can be controlled automatically by dialing to the fire brigade authority. These projects are handled by our qualified team of personnel, who have vast experience in their respective field. Highly cost effective, our range of systems are known for their reliability and durable performance. Further, we also consider the specific requirements of the clients while installing these systems.

Fire Sprinkler System

We offer an exquisite range of fire sprinkler systems that are installed in various industries, hotels, hospitals and multiplexes to ensure safety measures. These fire sprinkler systems are purely maintained with the support of water supply that provides enough pressure and flow rate to a water distribution piping system, onto which fire sprinklers are connected. Our fire sprinkler systems are featured with superior quality standards and innovative design. Fully automatic, these fire sprinkler systems operate at a preset temperature, utilizing a fusible link, a portion of which melts, or a frangible glass bulb containing liquid which breaks, allowing the plug in the orifice to be pushed out by the water pressure in the fire sprinkler piping that results in water flow from the orifice.

Fire Alarm & PA System

Catering to fire protection needs of the clients, we offer services for the installation of Fire Alarm & PA Systems that are used for alarming people in case of fire. Designed in the most advanced ways, these are considered as the most reliable means of controlling fire. Fire Alarm & PA Systems offered by us are in great demand by our customers due to their efficiency and response time. They are widely acknowledged for its design and functioning. Further, we also provide customization facility as per the specifications of the clients.

Awards and Achievements

The Prestigious Indian Leadership "Award for Industrial Development," "Bhartiya Udyog Ratna Award" & "International Achievers Award" for Business Excellence are given to Mr. Tushar Kadam for his contribution towards better growth and economy of India. This is surely a crown to our company's glory.

Core Values

Enthusiasm

We enjoy what we do and like to work with people who enjoy what they do- be it client, suppliers or our own team.

Commitment

We take what we do very seriously. Human life and significant expense can be at stake if we do not do our job right. We will do what it takes to get the right result for our clients, while not compromising on fire safety.

Confidence

Our confidence is based on our competence that we are industry leaders in fire safety.

Continuous Personal Development

We recognize that the fire industry is continuously changing and advancing and as such, we consider it important to be aware of the fastest developments of all aspects of fire. we do this through continual learning.

Honesty

We always endeavor to express openness with our clients, keeping all parties fully informed. We pride ourselves on our open and transparent quotation process. We wont create an expectation we cant deliver on.
