# A b o u t U s

We, “**Suresh Polymers Pvt. Ltd**”, are an eminent leading manufacturer and exporter of **Flexible Packaging Material** based at Nagpur & also authorised distributor of **Polyolefin Shrink Films branded as Cryovac, IMPACT & Opti** which is located in Central India. The products manufactured by us using quality-assured prime grade raw material of high performance Polymer, which is sourced from the certified vendors across the nation. All the manufacturing related activities of our company are efficiently managed by highly experienced and qualified professionals. We select our employees by testing their skills and technocrats. These experts carry out the production related processes in a technical manner at our multifaceted infrastructure. Our infrastructure is installed with all the pre-facilities that are required for manufacturing, quality testing, research and finished goods packing for offered products. Furthermore, post-production, the quality controllers of our team stringently test the final products on certain parameters of quality so as to ensure their flawlessness. Besides this, our logistics personnel make sure that the consignments are timely delivered at clients destination using our wide distribution network. Due to the hard-working workforce and advanced manufacturing facilities, we have been able to stand ahead of our industrial counterparts. Under the constant motivation and notable tutelage of our Chief Executive "**Dilip Kumar Gandhi**", BE. Hons BITS PILANI. We have gained a formidable position in the market, due to his vast experience in polymers since three decades and brilliant technical skill in flexible laminated packaging business.
