Solvent Recommendation if any :

Losses of Solvent permissible while regenerating :

Utility Availability:

- **Steam : dry Saturated/ any other:**.....
Flow (kg/hr)..... , Pressure (g):Kg/cm² ,Temperature..... (°C)
- **Thermic fluid system:**
Flow (kg/hr)..... , Maximum capacity (Kcal/hr) :.....
Maximum Temperature Level:(°C).
- **Cooling Water:**
Flow (kg/hr)..... , Head available:..... mwc,
Temperature Inlet :.....(°C) Out let desired:.....(°C).

- **Chilled water:**
Flow (kg/hr)..... Head available.....mwc
Temperature desired :Inlet:(°C). Out let :.....(°C).
- **Other temperature Level available:.....**
Maximum capacity of Refrigeration system:.....Kcal/hr / TR
- **Instrument air supply:** Head -----kg/cm²(g); Quantity-----Am³/hr

GENERAL INFORMATION

- Material of construction:
- Process Equipment:
- Process Piping:
- Utility Piping:
- Where will unit be installed : Indoor/ Outdoor
- **Space available:**
Horizontal : Length.....mm x Width.....mm
Vertical : Height.....mm.
- **Instrumentation :**
Level of automation desired: full / partial / none:
