

Tata BlueScope Steel donates Oxygen Concentrators to fight against Covid

Jamshedpur, 3rd June 2021

As part of its CSR initiative to augment healthcare infrastructure for fighting against Covid, Tata BlueScope Steel has taken up the responsibility to provide 100 Oxygen Concentrators to Tata Main Hospital (TMH), Jamshedpur. The Company today handed over 50 Oxygen Concentrators donated by BlueScope Steel Australia, to TMH in a small ceremony held at its plant at Bara, Jamshedpur. Next instalment of the Oxygen Concentrators shall be handed over to TMH subsequently. The concentrators will be utilized by TMH for their existing as well as upcoming facilities.

While sharing his thought on the occasion Mr. Riten Choudhury – Managing Director, Tata BlueScope Steel said, “We earnestly feel the need to support communities, to prepare better by strengthening the healthcare system, especially in areas where there is strain on medical infrastructure.”

During the ceremony, the Oxygen Concentrators were formally handed over to Mr. Chanakya Chaudhary (Vice President -Corporate Services, Tata Steel) in presence of Mr. Ritu Raj Sinha (Chief - Corporate Administration, Tata Steel) and senior doctors from Tata Main Hospital - Dr. Rajan Chaudhary (Advisor - Medical Services) and Dr. Sudhir Rai (General Manager – Medical Services) respectively. Tata BlueScope Steel was represented by Dr. Ashish Bhaduri (Chief-Operations) and Ms. Aditi Sharma (Asst. Manager-HR) along with other officers.
