

Teff Plast

<http://www.teffplast.com/>

We are manufacturing & supplying a wide range of **PTFE, Rubber, Thermoplastic (Plastic) Molded & Machined Components**. Our continuous delivery of products has enabled us to acquire a large client base across the globe.

About Us

We are an organization, established in **2006**, offering a range of **PTFE, Rubber, Thermoplastic (Plastic) Molded & Machined products & components as per customer requirement, these part required in OEMs like Automobile Manufacturing, Valve Industry, Pump Industry, SPMS, Electronics & Electrical Industries, Defence, Railways.** To provide quality products in stipulated time frame, we follow Kanban and Kaizen principles in manufacturing and management. Our product range includes **PTFE Products like PTFE Gaskets, PTFE Bellows, PTFE Rods & Bushes, Valve Seats, Hydraulic Slides, Chevron Packings & Seals and Compressor Rings & Bushes. We also offer Thermoplast & Plastic Molded Products.** We are known in the industry for distinct qualities of our products, like for tensile strength, hardness, elongation, compression set, resistance to chemicals, high pressure & temperature.

We are assisted in our efforts by our well equipped infrastructure, where we manufacture products as per the international standard. Our experts continuously engaged in working towards developing and manufacturing quality range of products. We also offer customization in our range to suit the exact needs of our clients. Our success can be attributed to the continuous efforts of our team, led by our mentor **Mr. Ram M. Chinchole**, without whose mentorship, our journey to success would not have been completed. He is a Mechanical Engineering...
