PREMIUM RANGE OF FIRE EXTINGUISHERS

DOUZE IT- THE ONLY SOLUTION

CO₂ is a clean agent, which leaves no residue after discharge unlike chemical powder which can be highly damaging. CO₂ is electrically non conductive and non corrosive which will protect your high value equipments and interiors.

**Easy to use
squeeze grip valve**

**Unique frost free
hose & horn**

- Double layered horn to prevent cold burns
- Fully flexible hose and horn to aid accurate delivery of discharge
- Allows you to fight fire from a safe distance

**Light weight
aluminium cylinder**

- Manufactured to global standards in partnership with Luxfer
- 50% lighter than conventional steel extinguishers making them easy
- Corrosion resistant

Co ₂ Capacity (Kg.)	2
Tare Weight (Kg.)	3.8
Filled Weight (Kg.)	5.8

Model Name	Desino
Model Number	DFX5
Finish	Polished Silver
Co ₂ Capacity (Kg.)	5
Tare Weight (Kg.)	7.3
Filled Weight (Kg.)	12.3

electricity is a
good servant but when
it becomes your master
there is disaster

**fire doubles
every
30 seconds**

80 % of
all fires are electrical
and with more
electrical gadgets in our life
the chances of a fire are
more now than
ever before

CREDENTIALS

- Made to EN3 standard, CE marked and certified by Lloyd's Register
- Cylinder approved by Petroleum and Explosive Safety Organization (PESO), Govt. of India
- Achieved fire ratings of 21B & 34B at NABL accredited lab
- 3rd party quality assurance by Lloyd's Register
- Manufactured by an ISO 9001 certified company
