

# 200 AMPS MMA/TIG/PULSE-TIG WELDING MACHINE

## Model INTIG-200P

**INTIG-200P** is MMA/TIG/Pulse TIG Welding Power Source with MOSFET Inverter Technology. They are widely used in various Kinds of metal for TIG Welding and for all kinds of acid and basic electrodes for MMA Welding.

### Features

- Reliable control circuit board with wide range of current adjustment.
- Built-in High Frequency
- Pulse can be adjusted continuously
- Protection against over heat.
- Suitable for stainless steel, decoration, kitchen appliances etc.

1	Machine Model	INTIG-200P
2	Input Supply	230 Volts Single Phase 50 Hz Supply
3	Rated Input Capacity	7 KVA in MMA 4.5 KVA in TIG
4	Out Put current range	10 ~ 200 Amps
5	OCV	56 V
6	Duty Cycle	60%
7	Efficiency	85%
8	Power Factor	0.93
9	Pulse Frequency	0.5 ~ 2 (Low) 50 ~ 200 (HIGH)
10	Weight	13 Kg
11	Dimensions	218 X 355 X 440 mm

Note: Specifications are subjected to change without notice
