

Helps you make **SENSE** of the world

BROMODORTM

Brimonidine Tartarate 0.15% + **EYE DROPS**
Stabilized oxy-chloro complex 0.005%

Brimonidine

Reduces the primary outcome of intraoperative time-weighted average IOP.
Anesthesiology 2012 Apr;116(4):807-15

Gets quickly taken up by the cornea following topical administration.
Klin Monbl Augenheilkd. 2012 Mar;229(3):236-40

Proven effective to counteract the increase in IOP following
Nd-YAG laser capsulotomy.
J Pharmacol Pharmacother. 2011 Apr;2(2):104-6.

Helps normalize autoregulatory control of retinal blood flow.
J Ocul Pharmacol Ther. 2011 Aug;27(4):347-52.

Stabilized oxy-chloro complex

New preservative with a wide range of activity and good safety profile
Cutan Ocul Toxicol. 2009;28(3):93-103

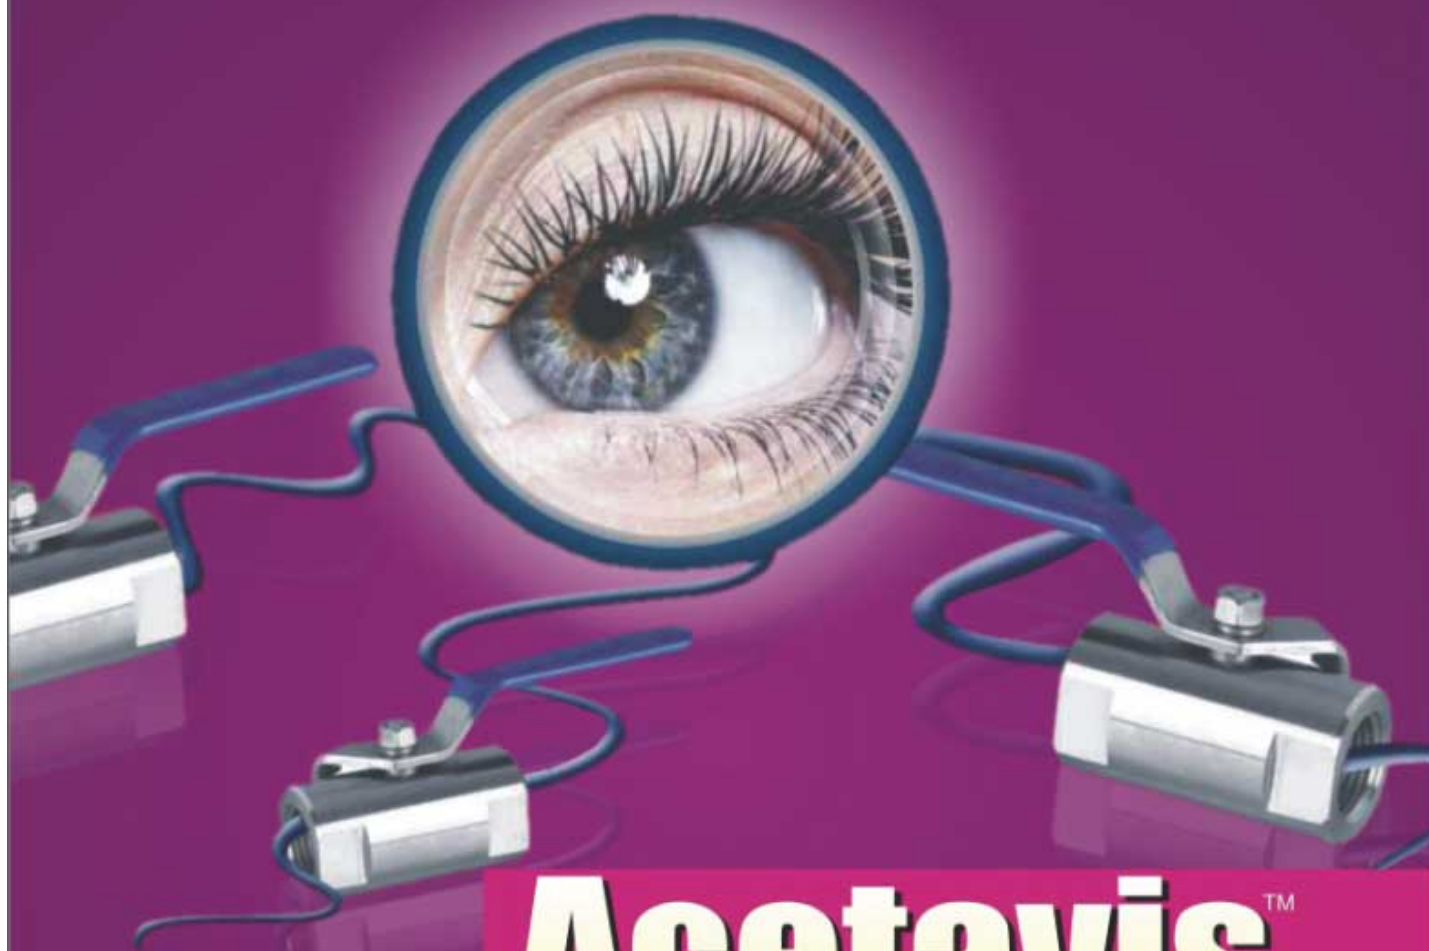

► **Open angle glaucoma**

► **Ocular Hypertension**

BROMODORTM Stabilizes Glaucoma normalizes vision

The highly sensitive approach **for reducing IOP**

ACE

AcetavisTM

Acetazolamide 250 mg

Tablets

- Provides significant control of IOP
Ophthalmologica. 2012 May 9
- Can be considered a 'possible standard' management of cataract surgery in POAG patients
Ophthalmologica. 2012 May 9
- Shows effectiveness of medical therapy in the initial management of APAC
Eye (Lond). 2010 Oct;24(10):1599-602

Indications : **Acute angle closure Glaucoma** ■ **Intraocular Hypertension**

AcetavisTM For effective **PRESsure LOWering** of eye

**The obvious choice for
best ear cleaning**

In **Ear Examination
Prior to ear surgery**

PARAWAX

PAF
PAW

Paradichlorobenzene 2% w/v + Benzocaine 2.7% w/v + **Ear Drops**
Chlorbutol 5% w/v + Turpentine Oil 15% w/v + Oily excipients

■ **Paradichlorobenzene**

Useful solvent to help disperse
and clear ear wax

■ **Chlorbutol**

Performs a dual role of a preservative
and anti-microbial

■ **Benzocaine :**

Widely used topical anaesthetic.
Br J Nurs. 2011 Feb. 10-23;20(3):168-70

Prevents sodium influx into free
nerve endings, thus blocking pain.

■ **Turpentine Oil**

Strong solvent and helps remove
wax effectively

Effective even against dry and
putrefied wax.

PARAWAX  The highly effective ear cleaner

for all around
comfort in eyes

Naphador®

Eye Drops

Naphazoline Hcl 0.056% + Chlorpheniramine Maleate 0.01% + Boric Acid 1.25% + Zinc Sulphate 0.12% + Sodium Chloride 0.05 % + Hydroxypropyl methylcellulose 0.25% + Phenyl mercuric nitrate 0.001% (as preservative)

MOX
NAP

Naphzoline

- Constricts the vascular system of the conjunctiva
- Relieves redness, puffiness, itchy and watering eyes associated with colds, allergies or eye irritations
- Delivers relatively long duration of action

CPM

- A first generation anti histamine treats allergy effectively

Zinc Sulphate

- Acts as an astringent, clears proteins and mucous from the outer surface of the eye

Boric Acid

- An irrigation solution to cleanse and treat irritated eyes
- Removes loosen foreign material; air pollution (smog or pollen) or chlorinated water

Indications

REDNESS & IRRITATION

OCULAR ALLERGIES

MILD INFECTION

Naphador® For Faster Relief

Total control of inflammation in *Post surgical care*

Nepatol[®] Eye Drops

Nepefenac 0.1% w/v +
BKC 0.005% v/v (as preservative)

NEPEFENAC

- Safe and efficacious not only following cataract surgery but also for postoperative inflammation and eye pain in intraocular surgery.
Nihon ganka Gakkai Zasshi. 2012 Feb.;116(2):86-94
- An NSAID which is effective in the prevention of postoperative inflammation and ocular pain associated with cataract surgery.
J Ophthalmic Inflamm infect 2011 Dec;1(4):147-55
- Safe and reduces postoperative pain and inflammation in patients undergoing vitreoretinal surgery.
Petina. 2012 feb;32(2):250-5

Benzalkonium Chloride

- Results in greater in vitro viability of TM cells.
Mol Vis. 2011;17:1806-13
- Potent and effective preservative

Indications:

**Post operative
pain & inflammation**

Nepatol[®]

Control pain & inflammation effectively

The Superior Mydriatic

Homodor[®]

Homatropine Hydrobromide 2% +
BKC 0.01% (as preservative)

Eye Drops

- Produces significant cycloplegia
Oman med J. 2011 Jan;26(1):23-5.
- Helps to dilate the pupil in inflammatory condition or in diagnostic or post surgery situations
- Potent anti-cholinergic and antagonist of the parasympathetic nervous system.
- Dilates the pupil and aids examination

Eye Examination

Post Surgery Healing

One of the few agents active against MRSA

Hydrocortisone

Contributes to neurite outgrowth by activating macroglia
to produce neurotrophic and neuroprotective molecules in
retinal cells

Invest Ophthalmol Vis Sci. 2012 Apr 24;53(4):2046-61

Has anti-inflammatory properties, reducing histamine secretion and
stabilizing lysosomal membranes

Indications :

Surface ocular infections

Corneal infections

Conjunctivitis

Post surgical infections

Chlodor[®]-H
Works hand in hand to heal

*Highly
effective
Yet gentle*

TROP*Vi*S®

Tropicamide 0.8% +
Phenylephrine Hcl 5%

Eye Drops

▶ TROPICAMIDE

- ▶ Has a significant measurable influence on anterior chamber depth and lens thickness.
Oman Med J. 2011 Jan;26(1):23-5.
- ▶ Produces satisfactory pupil dilation.
Ophthalmic Res. 2009;42(2):87-9. Epub 2009 May 27.

▶ PHENYLEPHRINE

- ▶ Does not significantly increase systemic blood pressure whilst causing dilation .
Oman Med. J. 2009 Jan;24(1):30-2.
- ▶ Has Minimal effect on accommodation, corneal alteration and corneal topography.
Clin Exp. Optom. 2007 Jan;90(1):44-8

Indications :

Mydriasis

Exe Examination

Short term pupil dilation

TROP*Vi*S® *For superior Eye Examination*

TIM
TRO

Pressure on the eyes Lead to Glaucoma

Timovis[®]-D Eye Drops

Timolol Maleate 0.5 % w/v + Dorzolamide 2% w/v +
Benzalkonium Chloride Solution 0.02% v/v (as preservative)

Dorzolamide

- Effective for the treatment of CME in patients with RP, and that the positive treatment effects last for up to 6 months.
Graefes Arch Clin Exp Ophthalmol. 2012 Jun;250(6): 809-14.
- Improves retinal and optic nerve blood flow.
Drug Metab Dispos. 2011 Sep;39(9):1529-37.
- Achieves higher aqueous humor, anterior vitreous, posterior vitreous, and optic nerve levels than brinzolamide.
Drug Metab Dispos. 2011 Sep;39(9):1529-37.

Timolol

- Effectively reduced IOP in chronic angle-closure glaucoma patients.
J Med Assoc Thai. 2012 Apr;95 Suppl 4:S116-22.
- Effective to stabilize the refraction after LASIK.
Zhonghua Yan Ke Za Zhi. 2011 Jul;47(7):596-600.

Indications

Open angle glaucoma Ocular hypertension

Also Available

Timovis[®] Normalizes pressure
improve visual function

Timolol Maleate 0.5 % w/v **EAR DROPS**
Benzalkonium Chloride Solution 0.02% v/v

Protects from **every possibility**

OtodorTM Ear Drops

Chloramphenicol 5% w/v + Beclomethasone Dipropionate 0.025% w/v + Clotrimazole 1% w/v + Lignocaine Hydrochloride 2% w/v (oily base)

OLO
OTO

Chloramphenicol

- ☑ Broad Spectrum bacteriostatic anti-bacterial
- ☑ Active against a wide variety of gram (+)ve and gram(-)ve bacterial and anaerobes

Beclomethasone

- ☑ Has a minimal impact on lenticular opacities development and/or progression
J Asthma. 2008 Dec;45(10):893-902
- ☑ Does not cause any elevations in IOP.
J Glaucoma. 2011 Jun 28.

Clotrimazole

- ☑ Alerts the permeability of the fungal cell wall and inhibits fungal enzymes.

Lignocaine

- ☑ Potent local anaesthetic.

In

Resolution from bacterial & fungal infections

Relief from pruritus & inflammation

Symptomatic pain relief

OtodorTM
Protector, Healer
& Preventer

In the management of Allergic Conjunctivitis

OlopisTM

Eye Drop

Olopatadine 0.1% +
Benzalkonium Chloride Solution 0.01% v/v (as preservative)

Mast cell stabilizer

Reduce & control the intensity of allergic reactions

Safe and well tolerated in subjects with a history
of allergic conjunctivitis

High rates of efficacy in treating ocular itching

INDICATIONS

Allergic Conjunctivitis

Atopic keratoconjunctivitis (AKC)

Giant papillary conjunctivitis

OlopisTM First ocular antiallergic agent
indicated for once-daily dosing

Defuse
the allergy bomb with...

Lecvis[®]-M

Levocetirizine 5 mg + Montelukast 10 mg **TABLETS**

MONTELUKAST

Provides benefits and improved control of asthma.

J Asthma. 2012 may 3.

Effective, as evaluated by improvement of the VAS scores.

Allergy AsthmaProc. 2012 March-Apr.33(2):e17-22

LEVOCETIRIZINE

Has several pharmacokinetic properties that are desirable for an antihistamine.
Expert Opin Drug Metab Toxicol. 2011 jun 4.

Provides a combination of both potency and safety, rapid and extensive absorption, limited distribution and its very low degree of metabolism.

Expert Opin Drug Metab Toxicol. 2011 June 4

Indications :

● Asthma ● Allergic Rhinitis ● Exercise Induced Bronchoconstriction

Lecvis[®]-M For long lasting relief

**Protects vision and
reverses damage**

Lycovis[®] Capsules

Lycopene 6% 5000 mcg + Lutein 8% 6000 mcg + Beta Carotene 10% Dispersion 10 mg + Vit. B6 1mg + Vit. B12 5 mcg. + Vit. D3 5 mcg. + Folic Acid 500 mcg + Niacinamide 25 mg + Biotin 10 mcg + Lysine Hydrochloride 50 mg + Ferrous Fumarate 45 mg + Dibasic Calcium phosphate 75 mg + Zinc Sulphate 10 mg + Magnesium Hydroxide 10 mg + Copper Sulphate 500 mcg + Manganese Sulphate 500 mcg + Sodium Selenate 200 mcg

- 👁️ Protects against the damaging effect of free radicals and prevents oxidative stress.
- 👁️ Helps in optimal production of retinal pigments and maintains vision.
- 👁️ Prevents age related macular defects and premature aging .
- 👁️ Helps maintain visual acuity for longer.

Indications:

Old Age

Prolonged illness

Maintenance of general health and vision

 **Lycovis**[®] For healthy life

The Steroid of
choice in
**ocular
inflammation**

Flumetha[®]

Fluomethalone 0.1% w/v +
Benzalkonium Chloride 0.004% v/v
(as preservative)

Eye Drops

- Useful tool in assisting vitreous surgery including
Safe ILM peeling
Graefes Arch Clin Exp Ophthalmol. 2007 Jul;245(7):1019-25
- Effective in reducing subclinical conjunctival inflammation
before filtering surgery
Graefes Arch Clin Exp Ophthalmol 2002 Nov;240(11):929-35
- Proves to be a safe anti-inflammatory treatment in terms of
avoiding steroid-induced glaucoma
Br J ophthalmol. 2011 Nov;95(11):1531-3

Indications :

Post Surgical Inflammation

Inflammation of conjunctiva

Inflammation of cornea

Inflammation of anterior segment

Flumetha[®] Controls inflammation
Swiftly and effectively

In Migraine and Vertigo

FME
END

FlunadorTM-10

Flunarizine Dihydrochloride 10 mg

TABLETS

- FLUNARIZINE is a selective calcium antagonist. It prevents cellular calcium overload by reducing excessive transmembrane calcium influxes.
- FLUNARIZINE is well absorbed from the gut, reaching peak plasma levels within (2- 4) hours and reaching steady state at (5- 6) weeks.

Most effective prophylaxis for migraine headache

1&2 The Journal of family Practice, Oct., 2003; vol. 52(10)

Shows 83% efficacy in the treatment of Migraine attacks

Headache: The Journal of Head and Face Pain Volume 21 issue 6 pg 235-239, Nov. 1981

**- Classic (with aura) or
common (without aura) migraine**

- Vertigo and vestibular disorders

- Peripheral and cerebral vascular
